

caviar beads

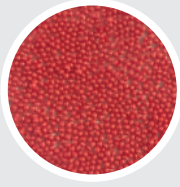

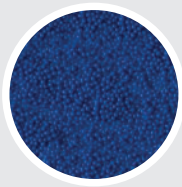

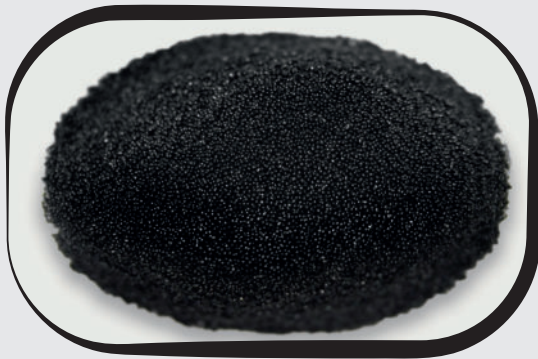

PHYTALATE FREE BEADS

Caviar beads are small, round and phthalate free PVC beads that come in many sizes and colors including transparent.

Caviar beads application is an alternative decoration method in textile printing industry.

Prior to caviar transfer, patterned glue is affixed using a serigraphy stencil. Caviars should be dispersed onto semi-wet adhesive. Generally, a slight cold press should be implemented. The glue must be fixed at a temperature of 145-150°C.

Caviar beads and glitters can be used on the same web.

Available Sizes

Small size 0,6-0,8mm
Medium size 1,0-1,2mm
